Hi Jim,

As I informed Prashant and Kirk, we'll get started on our review. I would like to touch bases with you in about 30 days to compare notes/comments before we send them out. As with the previous documents, EPA will provide draft comments and work with the PRPs on draft responses before we issue our final comments. I plan to do this as a scoping meeting as planned for in the meeting schedule.

Sincerely,

Robert H. Pope, GS-14
Senior RPM
Superfund and Emergency Management Division
USEPA Region 4

Subject: LCP Chemicals Brunswick GA OU2 HHRA Tech Memo

Please see attached the Technical Memorandum for the OU2 Human Health Risk Assessment, representing the 'front end' component involving COPC identification and inputs for the exposure assessment. Please note that the Statement of Work of the Administrative Order on Consent identifies this as a 'Review and Comment' deliverable and as such, our project schedule shows moving from completion of your review (scheduled as a 12/3 end date) into the Baseline Risk Assessment, with a meeting upon completion of your review to discuss comments prior to preparation of the Risk Assessment.

Please let me know if you'd like printed copies (and if so, how many) and I'll get that to you promptly.
